

**Premier Forest Products,
Panels Trader of the Year, 1998 & 2003**

Terry Edgell, purchasing director: "Winning TTJ Panels Trader of the Year for the first time in 1998 was a massive morale boost for us as a company. Premier had been trading for five years and the whole team had been working flat out to keep up our phenomenal growth record. It made us proud that the industry was recognising our efforts, and that our peers admired our achievements as well as our customers. In 2003, we were overjoyed to win the TTJ Panels Trader accolade again. As far as the team at Premier were concerned, it was a seal of approval from the industry, and recognition that Premier had become major industry players."
